ABOUT

AX is a multi-disciplinary artist working across a variety of mediums, primarily time-based, including kinetic sculpture, interactive installation, sound, and moving/still image.

Their practice examines the microscopic tensions between and within the Sel(f/ves), existing along tangents or intersections of non-singular truths – parallel, overlapping, and cyclical. Innate conflicts of fragmented identities are distilled into rituals of repetition that stretch, mimic, or deform the human, creating visceral experiences that trigger the body's unconscious, dissociated response.
